

HTCE Activity Recording Sheet

Student #1 and Student #2

Name: Natasha House **Section #:** CIED 443-102

Date: 02/22/24

Picture Activity

Was the student able to place the first two pictures correctly in time order?

No

No

What explanation did the student give for order placement?

I feel like 1b is older because 2b women have style. 1b is not good style.

2a is not blurry clothes is different. 1a definitely see the clothes more worn. They haven't change in a while. But they didn't care.

When the students placed pictures 3, 4, and 5, did they place them in the correct time order?

No

No

What explanations did the student give for placement of the following pictures?

#3

Someone drew this there were no cameras

Has solid brick so it's pretty old

#4

That's an old car. But not as old as wagons. People still use these cars if they can find

Most recent has color

#5

There are wagons that's pretty old. I'm learning about this right now. The horses and oxen pulled the wagons.

"Is this Abe Lincoln" civil war was a very long time ago. Picture after war.

Did the student think this was easy or hard to do?

Easy

But most parts easy.

What things did the student say made it easy or hard?

Because you can tell in every picture and see when that was there

It wasn't very easy because I had to study the pictures. Not too hard.

Which pictures did the student find the most interesting?

3b. Because it tells a lot more detail. If you could read all the information and find out more.

5a.

Why did the student pick specific pictures?

Student chose 2b because of the clothing style. She thought that it was the most fashionable out of all the other pictures.

Although I knew he did stuff like this. From reading I wouldn't think he went out with soldiers

Based on one picture you chose, how did the student answer this question: How do you think your life would have been different if you had been alive at this time?

Well I would be dead by now. I would get to drive this cool car and make my own music.

If I was a bit older I'd be working at a factory. No child labor laws. Like New York or Chicago. We wouldn't be sitting watching tv. If there wasn't a war I'd be on a farm. In the south I'd help my mom sow while slaves that stuff.

What time period did the student choose for each picture?

1b - is the year 12,000? 1480's 2b - 1780's looks like when certain people couldn't go places. 3b - 1360's 4b - 1820's 5b - 1640's

1a - I can see the buildings. It's unusual for the houses to have windows. I don't know where glass comes from.

2a - Picture after war. Wealthy people clothes. 3a - it has solid brick so it must be pretty old. 4a - it's recent the picture has color. 5a - Abe Lincoln is in the picture so maybe when he was president

Additional Questions:

Do we have a king in our country? (If students say "yes," ask who it is.)

We have a president. No king, they used to, I think there's a chance, a possibility

No. George Washington and citizens didn't want a King George 4th. Thought great Britain was bad. Did everything opposite.

- Who is the president?

Joe Biden

Right Now? Joe Biden

- What do you think the president does when he goes to work?

Paperwork, tell people what to do

Presidents job to enforce laws. But also would probably dealing with war right now. Laws are made everyday he has to veto them. Dealing with that everyday. Citizens can kick them off.

- How does someone get to be president? (If students say the president is elected, ask if they know of any other people who get elected.)

Elected. My father has to get votes to be elected (Side note: father does not need to be elected he works for EMS)

The main way to campaign and get votes. Main way to get elected. Another way to get elected U.S. citizen 35 years old or a certain amount of age. Usually can't have committed serious crimes. I don't know any not serious crimes. People in congress have to be elected. Not Judicial Branch.

- What do judges do?

Judge situations to see divorces. Bad situations with jail. **"I'm so big brained, I'm so smart"**

Judges see people who have done wrong. Like serious crimes. They tell them if they have to go to jail or not

Who do you think are the most famous people in history?

Trump. Abraham Lincoln. George Washington. Harriet Tubman.

George Washington. Martin Luther King Jr. Neal Armstrong - I think he is important. Because he is the first person to go on the moon. Very big accomplishment for America. America and Russia were competing to get first on the moon. First person on moon. Ben Franklin - Invented most simple need in the world

- Tell me something about George Washington.

Famous for his big poofy hair. Did he elect people? Or was he the president?

General of the Revolutionary War. People wanted him to be their king. He said no and he's the reason why we have presidnet's. He was the frist president.

- Tell me something about Martin Luther King.

Famous person. He helped take away people who couldn't ride buses, and didn't have rights for things.

I think this meant "Jr." people may not know this. Played a big role in civil rights movement. Devoted everything to the movement. Gave the "I have a dream" speech. Important guy in the movement.

- Who is the most important woman you've ever heard of?

Harriet Tubman. Because she saved more than 1000 slaves. Helped people escape from being slaves.

Harriet Tubman. Not only did she free slaves. She also helped the women's rights movements. Served as an example because Susan B Anthony didn't agree because women can't do everything men can.

When you buy something in a store, who decides how much the price is?

The President

Store Manager. He's probably the one who bought it.

- How do they decide how much to charge for it?

I don't know

Maybe first buy it's worth and then attach a little more. To make money. That how restaurants/stores make money. They wouldn't have money.

- Where does the store get the things it sells? (If students say they buy them from somewhere else, ask , if you paid five dollars for something at the store, how much would the store have paid for it when they got it— five dollars, more than five dollars, or less than five dollars?)

They make it or they get it from Amazon

General store would say "made in U.S." plastic and foil from U.S. But if I walked into say a grocery, sorry not grocery store. A clothes store. I'd find barely anything made in the U.S. not many shepherds here, wool from other countries they need it for our clothes.

- What are taxes? What are they used for? Who decides how much taxes will be?

Taxes is something you have to pay with the price of the item.

The President

Basically how the government gets money. Bills are what we pay money for because we need it. Taxes are taken for nothing how the government gets money. Government doesn't do anything to make money like people in business. If you live in the U.S. you pay taxes. President decide what taxes we pay.

Have you ever been to a building called a bank? ____ What is it for?

I have, Something that saves money

Been iside of one. A bank is basically where people put their money. If you keep money at your house and it burns down theres no money. Bank has insurance if it gets robbed. You stil have your money. Banks give loans to people borrowing and giving it back.

- What happens when you put your money in a bank?

They store it until you wanna use it

Well gives you a giant shield, if the bank gets robbed or something happens to it.

- If you put your money in the bank and then take it back out later, do you get the same amount you put in, less than you put in, or more than you put in?

You get less because you have to pay to keep it in there

The same

- Why?

No, I don't know why

If you spent some it'd probably be less. Other than that it'd be the same

- Can you borrow money from a bank? If you borrow money, when you pay it back, do you pay back the same amount you you borrowed, more than you borrowed, or less than you borrowed?

No, I don't know why

If you're gonna talk about loans you gotta talk about interest. The longer you take the more the interest.

People usually don't pay the money back soon what the point of taking a loan if you already have money. The longer you have it the more you have to pay back.

What city do you live in? What are the names of some other cities?

Illinois? Belleville... other cities: Canada, New York, Ohio

Columbia - St. Louis, Vandalia, New York

- What state do you live in? What are the names of some other states?

Springfield is the capital of it. But I don't know.

Illinois - Washington, Texas, South Carolina, Mississippi, Maine, New York, California, Columbia (Colorado)

- What country do you live in? Tell me the names of some other countries.

We live in a country... With help... U.S. I don't know other countries

U.S. - Russia, Ukraine, Ireland, United Kingdom, Sweden

- What things are different in other parts of the world? How are they different?

There is cold. Equator make some parts cold.

First thing that I think of Russia they don't have democracy. They have... i cannot think of it... but the government is different. Cultural Religion. Israel is probably different then ours like they are Jewish, that's a different religion.

- Where have you learned about other parts of the world?

In social studies and science

Mostly from books. If you were in my class you'd see me get told off for reading under my desk. I'm a giant book worm and that's how I get alot of my info. In class when I'm not reading in Social Studies or Language Arts from projects.

- What is a compass rose?

It is directions. On top there is North. Right is West. Left is East. Down is South.

If I remember correctly it's North, South, East, and West.

- Why would you use a map?

Back in the old days used to tell where to go and how to get there. GPS took over.

You have to know where you're going. If you stroll out you'd get lost. If you got lost and then pulled out a map of the world it wouldn't help. But if you got a map of a trail or a bridge.

- How do you use a map?

I don't know

If you were some place and got lost. Looking at landmarks on the map you could figure out where you're at.
Follow the trail or something there.
